Jennifer Jane Webster

I have worked in schools for the past 8 years as a Teaching Assistant working with students with special educational needs, behavioural needs, and giving general support in the classroom to all students. I have completed a term as a parent governor in a busy infant school, I felt it was my role to give a parents point of view on all issues concerning all aspects of school life. For the past 6 years I have worked in a large high school similar to Calderstones and feel I am in a position to make a contribution to the governing body with a wide range of experience both as a parent and a professional. I feel strongly that parental involvement in school life encourages positive relationships between home and school. As a parent governor I hope to give a balanced, non-judgemental point of view with our children and young people in mind.
